

To all light walkers, I have been asked to provide an environment to enable the re-awakening and speeding up of all light walkers.

Can you remember your soul's purpose?

Are you aware that things appear to be speeding up?

Regardless of your answer join me for an evening of exploration into the unknown

This evening is not just limited to people already working with the energies but also anyone who has started experiencing feelings that there is something else out there.

I do not at this point know how the evening will progress but please allow for a late finish, Spirit has never been a good time keeper !

If you have one please bring along a Crystal - You will know which one!
